## **As we say good bye to 2020**

It is time we all start Looking forward to the future of 2021.

As a community the future of our city depends on a united approach of sharing ideas, resources, expertise and knowledge. The need to start engaging and creating the community we call home.

The city core needs of water, sewer, roads and sidewalks require continuous maintenance and upgrades; the taxes required to keep our community services in operational condition comes at a heavy cost to everyone. The taxes from residential homes and businesses are carrying that heavy burden, that is only going to continue to get worse unless we start growing our cities population and revitalize our businesses.

The downtown core is in need of a full restoration and revitalization, to give the traveling public a reason to stop and stretch their legs in our community on their journey through our city. The downtown business owners are the ambassadors who promote our community and its amazing assets. Greenwood has endless stories of our past and present, with good promotion and providing points of interest, we can expose what Greenwood and surrounding area really has to offer. Using the aids of digital technologies, we can showcase and make that history come alive, on their phones and tablets.

Economic development starts with people, working in the same direction together.

With collaboration, dedication, promotion and hard work, 2021 will bring prosperity to Greenwood.

I look forward to help being part of that change, by serving your community as your active Mayor.

*Barry Noll*
